

Adrian Nieściur

I started programming around the same time I learned how to ride a bike, 9yo me loved both, but the bike didn't have semicolons.

EXPERIENCE

EDUCATION

Computer science / Zespół Szkół Nr 26 w Warszawie

SEPTEMBER 2020 - JUNE 2021

Computer science / Zespół Szkół Technicznych w Janowie Lubelskim

SEPTEMBER 2019 - SEPTEMBER 2020

PROJECTS

Google Chrome Extension — Task automation tool

Open-source browser extension that allows you to record your actions and perform them again when needed. Idea was to simplify very repetitive and redundant tasks with automation. [GitHub repository](#)

Software translation — English to Polish

Translation for open-source software called Optimizer, portable utility that helps you restore your privacy and increase your security. My translation made into its official [GitHub repository](#)

Sudoku — [Browser game](#)

Sudoku written in C# in Unity Engine. Initially, the game was designed for smartphones/touchscreen, but I slightly modified it to fit browsers. It includes Sudoku puzzle generation for the player to solve with a scoring and
